

From: The Stewards

To: Competitor's Representative – Conquest Racing No. 21

Re: Technical Waiver

Stewards Decision No: GT3-03

Date: 30 April 2023

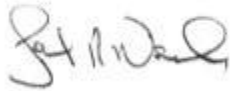

Time: 08:35

The team representative of the No. 21 Conquest Racing car has filed a waiver request to allow them to compete in Race 2 without the required TPMS sensors. They state that the manufacturer has delayed delivery several times, and provided documents showing the orders for the parts, and backordered status.

The series Technical Manager was consulted, and was in agreement that a 1-event waiver was acceptable.

The Stewards, having considered the matter, grant a 1-event waiver for the No. 21 to compete in Race 2 without the required TPMS components.
